Here is a fact for you to think over, viz.: Medical science proces that diseases, no matter how great a variety they seem to have, proceed from comparatively few causes. It is for this reason that some single medicines relieve or cute so wide a range of complaints—some of them appearing almost directly opposite in their natures. When a medical preparation acts at once upon the digestive and urinary organs, and also purifies the blood, the list of complaints subject to its central is astonishing.
